RE: CERTIFICATION OF EXPECTED GRADUATION/COMPLETION DATE

To Whom It May Concern:

This is to certify that Mr. Egberto F. Selerio Jr., a Doctor of Engineering candidate with student number 20102931, is currently under my direct research supervision.

His dissertation is titled "Physics Enforcement on Machine Learning Surrogates of the Activated Sludge Process," formerly titled "Novel Machine Learning Methods for Process Optimization Problems in Biological Wastewater Treatment."

Based on his projected thesis defense in October 2026, and allowing for the necessary administrative processing time for revisions and submission, he is expected to complete all academic requirements for his degree and be eligible for graduation by the end of the Second Semester, Academic Year 2026–2027.

This certification is issued upon the request of Mr. Selerio in support of his application for a scholarship extension.

Sincerely,

Lorafe F. Lozano, DEng
Thesis Adviser
