RE: CERTIFICATION OF EXPECTED THESIS DEFENSE

To Whom It May Concern:

This is to certify that Mr. Egberto F. Selerio Jr., a Doctor of Engineering candidate with student number 20102931, is currently under my direct research supervision.

His dissertation is titled “Physics Enforcement on Machine Learning Surrogates of the Activated Sludge Process,” formerly titled “Novel Machine Learning Methods for Process Optimization Problems in Biological Wastewater Treatment.”

Based on his current progress, remaining research activities, and the detailed timeline he has prepared, it is my professional assessment that he is expected to be ready for his final thesis defense by October 2026.

This certification is issued upon the request of Mr. Selerio in support of his application for a scholarship extension.

Sincerely,

Lorafe F. Lozano, DEng
Thesis Adviser
